Ohhh Denise,

Nice website!!!! I love the variety of soap you offer. The website is easy to navigate, excellent descriptions of your products, great "mission statement". Excellent job...you should be doing the happy dance!!

Dee it is great! :woohoo: I only wish the pictures were larger so we could see all of your wonderful soap better. :(I might have to "barrow a name or two from you ";) Simply Castile is one of them.

Thanks for the feedback Jan and Jane!

I am still working the bugs out of this thing. Like I discovered one of the emails associated with the site is not working properly and when I looked at it through Webmail, lo and behold there was a PAID order sitting there! Woohoo!! This is FUN!!

Jane, you're welcome to borrow some of the soap names. I will take your comment about the pictures into consideration. I work with a 22" monitor so the pics look big enough to me. But I can see where they'd be tiny if one had a 15" monitor which I suppose is more the norm! Hmmm...

OK, I gotta go make more soap!!! :) Denise

Thanks Nancy! The support from everyone on this board means so much to me! The number of soaps I offer speaks more to my crazy obsession for making soap than anything else. LOL Always looking for new colors and scents! I love it! I think the orders will "pour in" once I get the site hooked up with some online social networking... In the meantime, this is almost too much fun to be called a business!! Denise :)

Very nice Denise!

I also really like your descriptions. You have a nice variety of inventory. Right now we are selling about 18 different scents. Same basic recipe. Very well done and congrats. :)

Saponious...

PS You are looking very good in that photo also.
